

Name _____ Date _____

Class/Hour _____ Rotation # _____

Activity 4 Worksheet

Hospitality and Tourism Student Workbook

Follow the instructions in the workbook to complete this worksheet. Record the answers on the worksheet and turn in the worksheet to the instructor. Do not write inside the workbook.

Use the material safety data sheets for the product to answer the questions. When finished, write a few sentences explaining how harmful this product is to humans and the environment.

1. According to the Stability & Reactivity Data section, what materials should be avoided when using this product?

2. According to the Physical Data, what is the pH of the chemical? _____

3. According to the Physical Data, what is the specific gravity of the chemical? _____

4. According to the Handling and Storage Instructions, what are the precautions listed?

5. According to the First Aid section, what should be done if a person ingests, or swallows, the chemical?

6. According to the Exposure Controls & Personal Protection section, would the person using the chemical need respiratory protection?

7. According to the Accidental Release Measures section, what should be done if a spill occurs?

8. Do you think this product is particularly harmful to humans and/or the environment?
